- Languages: Python, SQL, JavaScript, HTML, CSS
- Frameworks & Libraries: React.js (Beginner), Pandas, NumPy
- Tools & Technologies: Git, MS Excel, Figma, Docker (Basic), Power BI
- Soft Skills: Communication, Teamwork, Problem-Solving, Time Management

PROJECTS

Online Bookstore Website | Personal Project

- Developed a fully functional e-commerce website for buying and selling books using HTML, CSS, and JavaScript for the frontend.
- Designed a simple backend to manage inventory and user data using Python.
- Implemented user authentication and a shopping cart feature.

Student Performance Predictor | Academic Project

- Created a simple machine learning model using Python and Pandas to predict student grades based on study hours and past performance.
- Cleaned and analyzed a dataset of 500+ student records using MS Excel for initial data exploration.

EXTRACURRICULAR ACTIVITIES

Coding Club Coordinator | NIT Bhopal TechFest 2024

- Organized and coordinated a 2-day 'Introduction to Python' workshop for over 50 first-year students.
- Worked in a team of 4 to manage logistics, create content, and assist participants. This experience greatly improved my communication and teamwork abilities.

Volunteer | Hope for All Foundation

- Assisted in managing the donor database and creating simple reports.
- Participated in community outreach programs on weekends.
